

# ELD News

## Quarter 1

## What is happening in ELD?

Students new to Aurora Academy will complete a language screener called WIDA screener to determine their English skill levels. The ELD team will use this information as well as returning students' ACCESS scores from last January to create leveled classes to best meet each student's needs.

ELD class details will be sent home when we are able to confirm rosters.

ELD classes will begin at the end of August.

Please contact our team with any questions!

---

## Why is ELD important?

All students must learn the complex, academic language of school.

In ELD we focus on learning language in context. Everyday we practice every domain of the English Language: listening, speaking, reading, and writing.

The language practiced in ELD supports learning and expression in all other classes, as well as situations outside of school.
